

ARDEX MRP™

Moisture Resistant Patch for Concrete to Receive ARDEX Moisture Control Systems

ARDEX MRP™ is a trowel-grade, cementitious patching and smoothing compound for filling and repairing heavily profiled indoor concrete on all grade levels prior to installing ARDEX Moisture Control Systems. ARDEX MRP produces a surface finish that does not require profiling.

Key Features

- Portland cement and select high-performance polymers
- Completely moisture resistant
- Easy to apply and hardens quickly
- Suitable for commercial and residential applications

Installation

- **Packaging:** 20 lb. (9 kg)
- **Coverage:** 35 sq. ft. per bag at 1/8" (3.2 m² at 3 mm)
- **Pot life:** 20 minutes
- **Walkable:** 3 to 4 hours
- **Install ARDEX MC™ Moisture Control Systems:** 16 hours

Performance

- VOC: 0
